

30 Years of Creating Custom Products

Founded in 1986 by Tony Ronci Sr., Faro is a great example of a true success story. From its humble beginning as a family operation in a small factory in Lachine (QC), this former costume jewelry supplier eventually evolved into a leading manufacturer in the promotional products and souvenir industries. With 85% of our line produced domestically, Faro is proud to employ hundreds of hardworking Montrealers at its factory in Pointe-Claire (QC).

Over the years, Faro has been well-recognized across North America for its high quality custom products as well as its highly qualified customer service team. In addition to being deemed a 5-star supplier by ASI, Faro has had the honor of being chosen a Supplier of the Year for 8 consecutive years and presented with numerous other industry awards in both our Advertising Specialty division as well as our Souvenir division.

Even with the continuous evolution of the company over the course of the past 30 years, our approach to business has always remained the same: Great service paired with exceptional quality. Each member of our customer service team has gone through a specialized training program to acquire the technical knowledge they need to simplify the ordering process of our uniquely custom product line. Each territory across Canada and the USA is assigned an account manager, an order analyst, as well as a graphic and production artist. The dynamic team works hard together to ensure that each piece meets your every expectation from design conception all the way through to the final delivered product.

From all of us at Faro, we would like to thank YOU for making these past 30 years possible and we look forward to serving you again soon!

DOMESTIC - THE KEY ADVANTAGES TO DOMESTIC PRODUCTS IS HIGH QUALITY AND QUICK TURNAROUND TIME.

This page explains the various processes mentioned throughout this catalogue in order to help you in choosing the most appropriate one for your design, budget and delivery date.

FARO CLASSIC

- Hand color filled
- Fine details are imprinted
- Color PMS matched
- Available in shiny electroplated finishes or hand brushed antique finishes

FARO ECONO

- Quickest and most economical domestically made product
- 5 day production only applies to Antique Pewter finish - All other finishes require 10-15 day production time

FARO SOLID PEWTER

- Pewter is a unique metal that allows exquisite detailing
- Can be hand color-filled for an added touch
- Color PMS matched
- High Perceived value

FARO DIGI-CAL

- Quickest and most economical for designs requiring a 4 color process
- Custom shapes included in price
- Dome included (extra charge for dome on Digi-Cal Lapel Pins)

FARO PHOTO FINISH

- Full Color Digital Print
- Unfinished Metal
- Most Economical Process

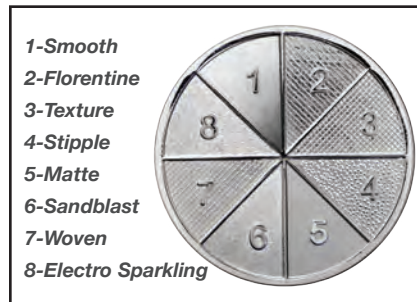

FARO BLING

- Sparkle effect combined with full color
- Economical way to add scintillating effect to any design

IMPORTED - THE KEY ADVANTAGES TO IMPORTED PRODUCTS IS HAVING INTRICATE DETAILS AT LOWER PRICES.

DIE STRUCK (BRASS)

- High perceived value
- Intricate detail
- Jewelry finish

CLOISSONÉ PLUS

- Known as imitation cloisonné and virtually indistinguishable from the real thing
- 4 PMS colors included

DIE STRUCK SOFT ENAMEL (IRON)

- High perceived value
- Intricate detail
- 4 PMS colors included

OFFSET PRINTED

- Colors are imprinted onto a flat brass or steel surface without the use of metal borders
- 4 color process included in price
- Allows for detailed designs

PVC

- Colorful and flexible, yet very durable
- 4 colors included in price
- Fun way to animate any logo

SCREEN PRINTED

- Colors are imprinted onto a flat brass or steel surface without the use of metal borders
- 1 PMS color included
- Allows for detailed designs

Terms and conditions

Artwork

Please see Artwork requirement page for details.
(Page 73)

Repeat orders

Please specify the P.O. number, invoice number, sales order number or design number

Delivery

Delivery times are always specified **from the date of artwork approval**. Delivery times are specified for each product in the catalogue and indicate when the product will be ready to leave the factory.

Shipping

Catalogue prices do not include shipping costs. All claims for damaged and lost goods in transit or for delayed delivery must be filed by the distributor/recipient with the carrier on receipt.

Split Shipments

(to the same address on different dates or multiple shipments to different addresses on the same date). Add \$10.00 per address, plus actual shipping charges.

Pricing

Effective February 1st 2016 and subject to change without notice.

Canadian customers

Prices are quoted in Canadian funds, F.O.B. Pointe Claire, Quebec. GST and Provincial Sales Tax will be added to invoices where applicable.

Corrections/Cancellations

Orders requiring corrections or cancelled will be charged for all work completed, including any applicable artwork, die or set up charges

Rush Charges

A rush charge may be applicable to any order required in less than the time indicated in the catalogue for that product. Please contact factory for more details.

Under Minimum Charge

\$150.00. A less than minimum charge will be added for quantities between 25% and 99% of the catalogue minimums for all product categories unless otherwise specified.

Conceptual Design (artwork without an order):

\$75.00(c)/hour. 50% of this charge will be credited when an order ensues.

Random Samples

Are available free of charge if the unit value is less than \$3.00. Any random samples with a value greater than the above said amount will be billed at the end column price. Transport costs other than regular mail are the responsibility of the distributor.

Overruns / Under runs/ Backorders

- All orders are subject to a 5% overrun or under run and will be billed accordingly.
- Orders requiring exact quantities will be subject to a 5% surcharge per unit.
- A backorder request will be granted if the quantity shipped is more than 5% under the requested quantity.

Returns

- Goods should be inspected immediately upon arrival.
- Claims for returns and/or quantity discrepancies must be made within 10 days of receipt of merchandise.
- A written authorization from the factory is required prior to the return of merchandise.
- All unauthorized returns will be refused.

Product Specifications

We reserve the right to make changes in specifications, colors and materials without notice or obligation, and specifically reserve the right to alter, withdraw or discontinue products at any time without notice or obligation.

New Accounts

A credit application is required for all new accounts, plus a 50% deposit with the balance paid prior to shipping.

Payment of Accounts

- Upon credit approval, terms are net 30 days.
- We accept VISA, Mastercard, checks and money orders.
- For orders over \$2500 only checks and money orders will be accepted unless otherwise approved by the factory.
- Credit cards will be accepted for payment at the time of billing, otherwise a 2% surcharge will apply.
- Interest charges of 1.5% per month will be billed on overdue accounts.
- NSF checks are subject to a \$25.00 charge, and will result in loss of credit privileges.

Model Molds

All dies, model molds and materials used in manufacturing remain property of FARO.

Trademarks/Copyrights

FARO will not accept responsibility for any copy right or trademark infringement arising from distributors orders. FARO assumes customers have obtained permission to reproduce logos and trademarks.

Right to promote

We reserve the right to use all products in our advertising and displays unless advised in writing by the customer.

Country of Origin

Federal law requires that all imported items bear the mark of the country of origin where the product is manufactured.

International / Overseas

Advance payment before production of orders.

Lead Free

For products specifically intended for use by children, please contact factory.

DISTRIBUTOR

Faro is a socially compliant company. Manufacturers of Quality Custom Promotional Products.

At Faro, our commitment is total customer satisfaction. We stand behind our products and service 100%!

Meet the Faro Team

As a leading manufacturer in the Advertising Specialty and Souvenir Industries, Faro has been dedicated to bringing your custom projects to life for over 30 years. Our highly trained Customer Service Team prides itself on 100% customer satisfaction and stands behind the exceptional quality of our domestically made products.

This quality and service has been greatly recognized in the Advertising Specialty industry with a 5-star ASI rating, an A rating on SAGE, and an ever-growing collection of PPPC Image Awards.

This catalogue serves to showcase our more common branding solutions which cater to every need and every budget; however there are no limits to what we can create. Our talented design team thrives on transforming a simple idea into an exceptional custom product. Whether it is for a simple tradeshow giveaway or a one-of-a-kind special project, Faro is the answer to your needs.

◆ ECONOMICAL LAPEL PINS

ECONO LP-ECN

Don't sacrifice quality for price. Faro Econo Lapel Pins provide excellent value at budget prices. To dramatically increase perceived value, consider adding 3D modeling.

Refer to 3D page 71

PHOTO FINISH LP-FCL

For exceptional detail without the cost, try our newest finish. With 4 color process printing directly on metal, you can economically produce fine details & vivid colors on your lapel pins.

OFFSET PRINTED LP-OFF

These pins offer color printing on stainless steel without the use of raised metal borders. A 4 color process is included in the price, allowing for detailed designs at an economical price.

Consult factory for Brass Finish

SCREEN PRINTED LP-SCP

These pins offer color printing on stainless steel without the use of raised metal borders. They are PMS matched and allow for detailed designs.

ECONOMICAL KEY CHAINS

ECONO KC-ECN

Often called the 'workhorse' item of the key chain family the Faro Econo key chain features an automated antique finishing process that makes this model truly affordable. For dramatically increased perceived value, consider adding 3D modeling.

Multi-Level Modeling
(see page 70-71)

DIGI-CAL KC-DCL

The quickest and least expensive way to get many colors on a key chain. Custom shapes are available at no extra charge, subject to design approval. (Pantone matching is within CMYK standards only.)

HIGH-END KEY CHAINS

PEWTER KC-PWT

Hand brushing, exquisite details and subtle tones, make Faro Solid Pewter Key Chains the #1 choice for perceived value – even more so when executed in 3D.

Refer to 3D page 71

PULL APART KC-PAT

Truly outstanding when in 3D, this detachable key chain delivers unique and custom shapes.

Refer to 3D page 71

ENHANCEMENT OPTIONS

From Multi-Level Modeling to a full 3D model, our award winning customer service staff can develop your design into a creation that will not only increase the exposure of your logo, but will make the product you choose even more distinctive and memorable. Choose from one of the 3D modeling styles that best suit your design and budget. Solid Pewter or brushed antique (colonial) finishes highlight the finest details of your design and provide the best results for 3D models.

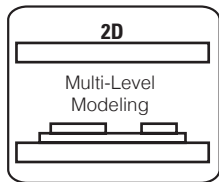

FOTO CAST

Bring your design to life with our FARO Foto cast process. **For no additional artwork, die or set-up charges** we can take an image from a photograph and cast it into metal products including pewter key chains, medallions, belt buckles, desk accessories and more. Foto cast products work best at larger sizes and/or with a defined subject matter such as faces and wildlife. Too much detail at a small size will not produce the desired effects. The less complicated the image the more effective the result. This process also requires the "right" type of source material in order to achieve effective results. Any images where there is too high a contrast and/or includes prominent or numerous shadows, will not reproduce well. If unsure of the suitability of your source material or if unsure that Foto Cast will give your design the desired results, please contact your customer service representative.

MULTI-LEVEL MODELING

Enhance the look of key chains, lapel pins, medallions and more by choosing the multi-level modeling technique. As a great alternative to 3D, this technique can embellish any piece for a fraction of the price of one-sided or full 3D modeling. The effect is created by modeling multiple layers of flat segments on top of one another, giving your piece a look and feel that very closely resembles 3D. Great for logos, buildings and much more. Subject to design approval.

Price for Multi-Level Modeling: 90.00(C)
Unit prices of products are not affected using this form of modeling.

◆ TRANSLUCENT COLORS

FARO TRANSLUCENT COLORS

8 different translucent color to choose from.
Can be applied in 3 different ways (as shown).

Standard: Color Fill in the recessed cavities.

Immersed: The design is completely submerged below the surface.

Cut Through: The stained glass look.

Color charges: Both standard and immersed designs are charged based on the specific product being created. Cut through designs require a custom quote.

Cut Through

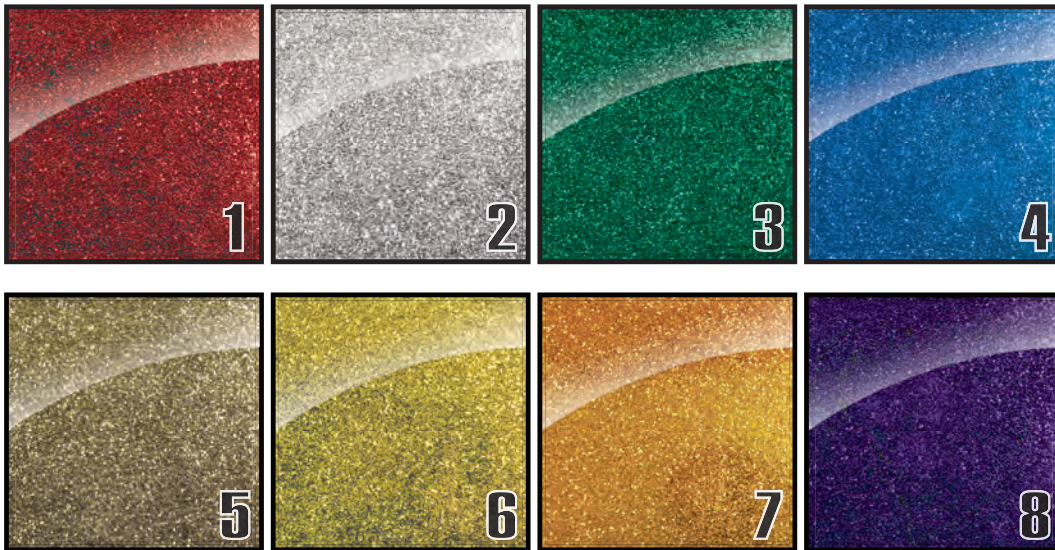

Immersed Design

Standard

TRANSLUCENT EPOXY WITH GLITTER

IMPORTANT: PMS matching is not available for transparent colors. These colors are manually mixed to compensate for the depth and area to be filled; as a result, slight color variations may occur. The colors shown above are filled over nickel plated metal (silvertone metal). Because of the transparent nature of the epoxy, the base finish will also have an effect on the color tone. Please use this chart for reference only. Translucent epoxy with glitter is not recommended for filling small details or text; the desired effect is best achieved when filled into a larger surface area.

ARTWORK REQUIREMENTS

Our Art Department is able to work to the most exacting standards to ensure that the Final product is a faithful rendition of the art reference you submit (within the limitations of our technology). However, more often than not, our clients rely on the extensive experience of our Art Department to design a good-looking product within certain broad parameters. In either case it is imperative that the art references you submit adhere to the following guidelines.

Suitable VECTOR artwork must be supplied or artwork will be charged at an hourly rate of 75.00 (C)/hour. REVISIONS will be subject to a \$ 25.00 (c) charge per revision.

FILE FORMAT REQUIREMENTS

Figure A

VECTOR ART FILE FORMATS:
-ALL TEXT MUST BE OUTLINED (CONVERT TO OBJECT)
-ALL VECTOR FILES MUST BE ACCOMPANIED BY A VIEWABLE FORMAT FILE (JPG OR PDF)

- .ai Adobe Illustrator
- .eps Encapsulated Postscript
- .pdf Portable Document Format
- .cdr Corel Draw
(please save and send in vectored PDF format)

BITMAPS OR PIXEL FILE FORMATS ARE ACCEPTED ONLY FOR PRINTED 4 COLOR PROCESS ITEMS.
300 DPI RESOLUTION MINIMUM AT ACTUAL PRINT SIZE
-A HARD COPY MUST BE SUPPLIED AS COLOR REFERENCE

- .psd Adobe Photoshop High resolution image
- .jpg Joint Photographic Expert Group High resolution image

Figure B

Classic Color Filled (Epoxy)

- White PP

3/8" FOR PRODUCTION

Digital / Foto Color

- Raised Gold Metal
- 4 Color Process Dp

3/8" cut line

4 COLOR PROCESS PLEASE READ BELOW

4 COLOR PROCESS GENERATES COLORS USING CYAN, MAGENTA, YELLOW AND BLACK COMBINATIONS. DUE TO THIS PROCESS AND FILE FORMAT, PMS MATCH IS NOT AVAILABLE. ALSO, DUE TO THIS TYPE OF REPRODUCTION, COLORS MAY NOT BE 100% ACCURATE AS PER THE ORIGINAL ARTWORK.

Antiqued Metal (No Color)

- Raised Antique Brass Metal
- Recessed & Texture Except Small Areas Are To Be Smooth

3/8" FOR PRODUCTION

OUR ART APPROVALS

Please refer to Figure B. for an example of how our legend will look on the art approval form. It will display a small description of the piece, the size and a legend describing plating and color location. In general the black & white art represents the metal portion of the item. Black indicates raised metal surfaces and white indicates recessed metal surfaces.

Artwork with colors (excluding 4 color process) will show color locations accompanied with a legend of colors used. Recessed metal surfaces may be color filled provided the color is totally outlined by raised metal in order to contain the epoxy. Recessed metal may be textured when there is no epoxy fill, in such cases "RECESSED & TEXTURE EXCEPT SMALL AREAS ARE TO BE SMOOTH" will be indicated.

USING PANTONE NUMBER (PMS) TO SPECIFY COLORS

- Specify the Pantone number (pms) when available.
- Spot color printing or colorfilling pms numbers must always be provided.
- Pls note PMS matching is not available for 4 color process printing.

ART SENT BY FAX

- Do not send photographs by fax.
 - Send black and white art reference as clear and large as possible.
 - It is preferable to send a colored art reference by mail (hard copy) with a legend that specifies color location and other details.
 - Art work sent via fax or mail can be subject to an hourly rate charge.
- See web site for more details

THE FOLLOWING ARE NOT ACCEPTABLE AS ART REFERENCES

- Slides and transparencies.
 - Color separated artwork without the composite.
 - Low resolution images from the internet.
- See web site for more details

Note the following sample of how artwork translates into product

Most typical production art submitted (black raised / white recessed)

* Recommended production art * (black raised / white recessed)

Product result (antique finish)
Hollow images with minimal contrast or definition.

Product result (antique finish)
Raised solid images for best contrast and look
